SEEMA MEMORIAL MAHAVIDYALAYA, HARSOR ROAD, PARBATSAR (NAGOUR)

PREFACE

The purpose of the Green audit is to ensure that the practices followed in the Government Degree College campus are in accordance with the Green Policy adopted by the institution. Green Audit is a process of systematic identification, quantification, recording, reporting and analysis of components of environmental diversity of Government Degree College. It aims to analyses environmental practices within and outside of the concerned sites, which will have an impact on the eco-friendly ambience.

It can make a tremendous impact on student health and learning college operational costs and the environment. The criteria, methods and recommendations used in the audit were based on the identified risks. Seema Memorial College has made a self inquiry on environmental quality of the campus with the following objectives:

1. To map the Geographical Location of the college
2. To document the floral and faunal diversity of the college.
3. To document the Waste disposal system.
4. To document the ambient environmental condition of air and water of the college.
5. To promote environmental awareness through participatory auditing process; and This report is compiled by a committee constituted by IQAC. As there was no standard model for such an environment/green audit of campuses in the state, the committee brainstormed and evolved a questionnaire. With the help of faculty members, the major part of the data was compiled, which the committee analyzed.

The remaining part which involved measurement of quality was entrusted with the Department of Botany, Horticulture, Zoology, Physics, and Computers also Pollution Control Board of Govt. of Andhra Pradesh. The committee has made short term and long-term suggestions to take environment protection to higher levels and it is hoped that this will receive due attention of Seema Memorial College authorities and also all stake-holders of the Seema Memorial College.
